

[Hummingbird](#) / [MetricsMiddleware](#) / `handle(_:context:next:)`

Instance Method

# handle(\_:context:next:)

Inherited from `MiddlewareProtocol.handle(_:context:next:)`.

```
func handle(  
    _ request: Request,  
    context: Context,  
    next: (Request, Context) async throws -> Response  
) async throws -> Response
```
