

[Hummingbird](#) / [RequestContext](#) / maxUploadSize

## Instance Property

# maxUploadSize

Maximum size of request body allowed when decoding requests. If a request body that needs decoding is greater than this size then a Content Too Large (413) response is returned. This only applies to decoding requests.

```
var maxUploadSize: Int { get }
```

**Required** Default implementation provided.

## Default Implementations

### RequestContext Implementations

```
var maxUploadSize: Int
```

Maximum size of request body allowed when decoding requests.
