

[WSCore](#) / WebSocketInboundMessageStream

## Structure

# WebSocketInboundMessageStream

Inbound WebSocket messages AsyncSequence.

```
struct WebSocketInboundMessageStream
```

## Topics

### Structures

```
struct AsyncIterator
```

### Instance Methods

```
func makeAsyncIterator() -> AsyncIterator
```

### Type Aliases

```
 typealias Element
```

### Default Implementations

 AsyncSequence Implementations

# Relationships

## Conforms To

`Swift.Sendable`, `_Concurrency.AsyncSequence`

---

## See Also

### Messages

`enum WebSocketMessage`

Enumeration holding `WebSocket` message
