

[HummingbirdTLS](#) / [TLSChannel](#) / server(configuration:onServerRunning:eventLoopGroup:logger:)

Instance Method

server(configuration:onServerRunning:eventLoopGroup:logger:)

Inherited from `ServerChildChannel.server(configuration:onServerRunning:eventLoopGroup:logger:)`.

📖 [HummingbirdTLS](#) | 📖 [HummingbirdCore](#)

```
func server(
    configuration: ServerConfiguration,
    onServerRunning: ((any Channel) async -> Void)? = nil,
    eventLoopGroup: any EventLoopGroup,
    logger: Logger
) -> any Service
```
