

[WSCore](#) / [WebSocketInboundStream](#) / [WebSocketInboundStream.AsyncIterator](#)

Structure

WebSocketInboundStream.AsyncIterator

Inbound websocket data AsyncSequence iterator

```
struct AsyncIterator
```

Topics

Instance Methods

```
func next() async throws -> WebSocketDataFrame?
```

Return next WebSocket frame, while dealing with any other frames

```
func nextMessage(maxSize: Int) async throws -> WebSocketMessage?
```

Return next WebSocket message, while dealing with any other frames

Default Implementations

 AsyncIteratorProtocol Implementations

Relationships

Conforms To

`_Concurrency.AsyncIteratorProtocol`
