🗒 **Documentation**

Hummingbird Document… / Hummingbird / RouterOptions / OptionSet Implementations

API Collection

OptionSet Implementations

Topics

Initializers

`init()`

Instance Methods

`func contains(Self) -> Bool`

`func formIntersection(Self)`

`func formSymmetricDifference(Self)`

`func formUnion(Self)`

`func insert(Self.Element) -> (inserted: Bool, memberAfterInsert: Self.Element)`

`func intersection(Self) -> Self`

`func remove(Self.Element) -> Self.Element?`

`func symmetricDifference(Self) -> Self`

`func union(Self) -> Self`

`func update(with: Self.Element) -> Self.Element?`
