▣ Documentation   Language: Swift

Type Method

redis(_:configuration:logger:)

Return Redis driver for Job Queue

⊗ JobsRedis | ⊗ Jobs

```swift
static func redis(
    _ redisConnectionPool: RedisConnectionPool,
    configuration: RedisJobQueue.Configuration = .init(),
    logger: Logger
) async throws -> Self
```

Available when `Self` is `RedisJobQueue`.

Parameters

redisConnectionPool
  Redis connection pool

configuration
  Configuration

logger
  Logger used by RedisJobQueue
