🖽 **Documentation**	Language: Swift

Instance Method

server(configuration:onServerRunning: eventLoopGroup:logger:)

Inherited from `ServerChildChannel.server(configuration:on ServerRunning:eventLoopGroup:logger:)`.

⊗ HummingbirdHTTP2 | ⊗ HummingbirdCore

```swift
func server(
    configuration: ServerConfiguration,
    onServerRunning: ((any Channel) async -> Void)? = nil,
    eventLoopGroup: any EventLoopGroup,
    logger: Logger
) -> any Service
```
